Current Complaint

1. When did your symptoms begin? _____

2. Describe your symptoms _____

3. Injury Occurred: Auto Work Other

4. What activities make your symptoms worse: _____

5. What activities make your symptoms better: _____

6. Have you received treatment elsewhere for your symptoms? No Yes, if so where _____

Please fill out the following diagram and questions for each area of pain.

NOTE: Each diagram should only have ONE area selected

Mark the body below for Complaint #1

Please answer for 1st Complaint

TYPE OF DISCOMFORT (Circle All That Apply)

Sharp Dull Aching Burning Numbing Shooting
Tightness Throbbing Diffuse Tingling

FREQUENCY (Circle One)

Constant Frequent Intermittent Occasional
100-75% 75-50% 50-25% 25-1%

INTENSITY (Circle One)

1 = no pain, 10 = unbearable

1 2 3 4 5 6 7 8 9 10

Discomfort Increases With: (circle all that apply)

Movement Pressure Prolonged Sitting
Coughing/Sneezing

Discomfort Decreases With: (circle all that apply)

Rest Chiropractic Medication Movement Ice Heat

Mark the body below for Complaint #2

Please answer for 2nd Complaint

TYPE OF DISCOMFORT (Circle All That Apply)

Sharp Dull Aching Burning Numbing Shooting
Tightness Throbbing Diffuse Tingling

FREQUENCY (Circle One)

Constant Frequent Intermittent Occasional
100-75% 75-50% 50-25% 25-1%

INTENSITY (Circle One)

1 = no pain, 10 = unbearable

1 2 3 4 5 6 7 8 9 10

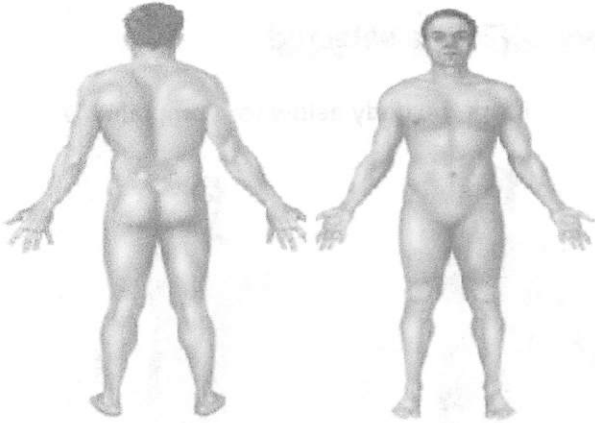

Discomfort Increases With: (circle all that apply)

Movement Pressure Prolonged Sitting
Coughing/Sneezing

Discomfort Decreases With: (circle all that apply)

Rest Chiropractic Medication Movement Ice Heat

Mark the body below for Complaint #3

Please answer for 3rd Complaint

TYPE OF DISCOMFORT (Circle All That Apply)

Sharp Dull Aching Burning Numbing Shooting
Tightness Throbbing Diffuse Tingling

FREQUENCY (Circle One)

Constant Frequent Intermittent Occasional
100-75% 75-50% 50-25% 25-1%

INTENSITY (Circle One)

1 = no pain, 10 =unbearable

1 2 3 4 5 6 7 8 9 10

Discomfort Increases With: (circle all that apply)

Movement Pressure Prolonged Sitting
Coughing/Sneezing

Discomfort Decreases With: (circle all that apply)

Rest Chiropractic Medication Movement Ice Heat

Mark the body below for Complaint #4

Please answer for 4th Complaint

TYPE OF DISCOMFORT (Circle All That Apply)

Sharp Dull Aching Burning Numbing Shooting
Tightness Throbbing Diffuse Tingling

FREQUENCY (Circle One)

Constant Frequent Intermittent Occasional
100-75% 75-50% 50-25% 25-1%

INFORMED CONSENT

DOCTOR-PATIENT RELATIONSHIP IN CHIROPRACTIC

CHIROPRACTIC

It is important to acknowledge the difference between the health care specialties of chiropractic, osteopathy and medicine. Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. This gives the body maximum opportunity to utilize its inherent recuperative powers. The success of the chiropractic doctor's procedures often depends on environment, underlying causes, physical and spinal conditions.

ANALYSIS

A Doctor of Chiropractic conducts a clinical analysis for the express purpose of determining whether there is evidence of Vertebral Subluxation Syndrome (VSS) or Vertebral Subluxation Complexes (VSC). When such VSS and VSC complexes are found, chiropractic adjustments and ancillary procedures may be given in an attempt to restore spinal integrity. It is the chiropractic premise that spinal alignment allows nerve transmission throughout the body and gives the body an opportunity to use its inherent recuperative powers. Due to the complexities of nature, no doctor can promise you specific results. This depends upon the inherent recuperative powers of the body.

DIAGNOSIS

Although Doctor of Chiropractic are experts in chiropractic diagnosis, VSS and VSC, they are not internal medical specialists. Your Doctor of Chiropractic may express an opinion as to whether you should take the step to get an additional opinion, but you are responsible for the final decision.

INFORMED CONSENT FOR CHIROPRACTIC CARE

A patient gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problems. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a chiropractic adjustment or therapy if he/she is aware that such care may be contraindicated. Again, it is the responsibility of the patient to make it known or to learn through health care procedures whatever he/she is suffering from: latent pathological defects, illnesses, or deformities which would otherwise not come to the attention of the Doctor of Chiropractic. The patient should look to the correct specialist for the proper diagnostic and clinical procedures. The Doctor of Chiropractic provides a specialized, non-duplicating health service. The Doctor of Chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

RESULTS

The purpose of chiropractic services is to promote natural health through the reduction of the VSS or VSC. Since there are so many variables, it is difficult to predict the time schedule or efficacy of the chiropractic procedures.

In most cases there is a more gradual, but quite satisfactory response. Occasionally, the results are less than expected. Two or more similar conditions may respond differently to the same chiropractic care. In turn, we must admit that conditions which do not respond to chiropractic care may come under the control or be helped through medical science. The fact is that the science of chiropractic and medicine may never be so exact as to provide definite answers to all problems. Both have made great strides in alleviating pain and controlling disease.

TO THE PATIENT

If you have any questions, please discuss any questions or problems with the doctor and/or staff.

I have read and understand the foregoing.

PATIENT'S PRINTED NAME

TODAY'S DATE
